

My name is Nathan Affolter, and I reside in Switzerland.

As a senior developer in both blockchain bots and front-end web development, please feel free to reach out to me for any bot development needs.

Nathan Affolter

 Port-Valais, Switzerland

nathanaffolter@proton.me

blockchain bot && front-end Development

Work Experience

front-end web developer

NoopsApp Sàrl

April 2021 - July 2023
Geneve, Switzerland

I have developed my front-end web development skills by creating web shops and becoming proficient in React, Vue, Next, Angular.

Additionally, through my work with Shopify and in e-commerce development, I became aware of the importance of high-quality and user-friendly web applications.

blockchain developer

Liti Capital SA

June 2021 - January 2023
Geneve, Switzerland

I had extensive experience in designing and implementing smart contracts on both Ethereum and Solana platforms.

My expertise includes developing dApps and DEXs, ensuring secure and efficient transactions.

senior bot developer

Grydl

January 2023 -
Geneve, Switzerland

I have developed trading bots that can effectively seize market opportunities and optimize returns for users.

Bot development is the field in which I excel the most.
